Vendor Guidelines

These guidelines define how Acme Corp selects, onboards, and manages vendors. They apply to all contracts above 5,000 USD in annual value.

Vendor Registration

Prospective vendors must register in the procurement portal, provide a W-9 or equivalent tax form, certificates of insurance, and two customer references. Registration review takes up to 15 working days.

Security Assessment

All vendors handling Confidential or Restricted data must complete a security questionnaire and pass a third-party risk assessment before contract signature. Vendors with system access must sign the Data Processing Addendum and enforce multi-factor authentication for all named accounts.

Payment Terms

Standard payment terms are net 45 days from invoice receipt. Invoices must reference a purchase order number; invoices without one are returned. Early-payment discounts of 2 percent or more are automatically accepted by Accounts Payable.

Gifts and Hospitality

Vendors may not offer gifts above 50 USD to any employee. Invitations to vendor-hosted events must be approved by Compliance in advance. This mirrors the employee obligations in the Employee Handbook.

Annual Review

Active vendors are reviewed annually for performance, security posture, and contract compliance. Vendors failing two consecutive reviews enter a remediation plan or are retired.
